

Form VI – Autumn 1

Strand – Economic Wellbeing

Unit of work – Career Development

Description

In this unit the Children will look at the skills required to attain certain careers and where to find such information. They will also set personal targets for the year, discuss how these targets will influence their development, as they approach exams. They will consider what kind of skills are required for needed for future careers and how their qualifications will help them to attain their chosen careers. They will explore other attributes that are needed to make a good impression in situations such as interviews.

Form VI – Autumn 2

Strand – Citizenship – Identities and Diversity

Unit of work – Young People and the Law

Description

The Children will discuss how the law affects young people and society in general. What are the different ages of responsibility and what the consequences of breaking these laws are? What different rights and social obligations exist within the UK and internationally? How do we balance these rules with individual needs and wants? They will also consider some situations where these rights are breached and how organisations have given protection in such situations.

Form VI – Autumn 3

Strand – Citizenship – Democracy and Justice

Unit of work – National Government in Britain

Description

The Children explore how the political system in the UK works. They will look at the different parties and how they form policy. They will investigate how MPs represent constituents and how they are represented in the houses of parliament. The Children will also discuss how laws are passed and how we endeavour to have a fair and transparent political system. They will also explore the rights of the individual and how our political system values justice, diversity, equality and freedom.

Form VI – Spring 1

Strand – Identities and Diversity

Unit of work – Community & Society

Description

Learners will explore the wealth of diversity that is resident in the UK and explore how tolerant they are of cultures that may differ from their own. The dangers of stereotypes and how these stereotypes are formed will be discussed as well as their ultimate consequences. We will explore community cohesion and how the positive aspects of diversity can enrich and develop our society.

Form VI – Spring 2

Strand – Personal Well being

Unit of work – Dealing with risk / First Aid

The Children will explore the dangers of new situations as they become more independent and develop an awareness of the dangers they may face. Various techniques for assisting in assisting casualties will be explored and practised.

Description

Form VI – Summer 1

Strand – Personal Well being

Unit of work – First Aid

Description

A Full programme of first aid will be completed where the children will learn various techniques including the recovery position and CPR will be taught. This unit may be examined and the children can be issued with certificates of achievement.

Form VI – Summer 2

Strand Personal Wellbeing

Unit of work – Sex Education & Drug Education.

Description

A full review of drug awareness and sexual education shall be undertaken in this term. The children will learn about the various types of drug and the various threats that different drugs and their misuse present. In Sex education the risks of unprotected sex shall be explored and different methods of protection and contraception shall be discussed in detail. Different sexual preferences and the right to personal choice and the issues around consent will also be explored,
